EVERY congressional district in the United States should form a silver club or have a leader who would get the name of every voter in it attached to a petition demanding of the respective representatives in congress that they support and vote for a free Sea controversy between the United coinage bill.

THE money in circulation in the United States amounts to about \$18 in favor of the United States. per capita, probably less, but certainly not more. This country can never prosper as it should with a less circulation than \$40 per capita. Where do our gold bugs calculate to get the increased circulation? Have they a plan? No one has ever heard of it. No: they want a gold standard, a condition that will enslave the people and make the money kings our masters.

WARS are a thing of the past. Those who fondly nurse the belief that a war between European countries will soon be chronicled will be disappointed. France and Sism may have a pass of swords but that will be all. Education and war are not found walking hand in hand nowadays. The world is to be governed hereafter by lightened. It is only among nations that are ignorant that war occurs.

THE eastern banks and bankers have sown the wind and are reaping the whirlwind. The financial storm which has wrecked so many western industries has swept across the continent like a cyclone and is spending ing its force on Wall street. When justice, fate, or whatever you may choose to call it, works retribution upon the soulless Shylocks so surely and swiftly there can be but one result, a concession to the demands of the people whom they have wronged.

THERE is much apparent dissatisfaction expressed on the part of cer- crats. tain of our territorial exchanges over the starting in Tombstone of the "Arizona Kicker." Without going any further we will state that the KICKER has come to stay. It will fill a long felt want. It has seemed impossible heretofore to interest eastern people in our resources. The poverty stricken editor has not been in a po- stead of an adverse balance of \$93,000sition to sow broadcast the knowledge that he knew should be disseminated about \$50,000,000, to kill off the germs of ignorance of Arizona's true condition. The mythical "Arizona Kicker" has done us a great deal of harm. How shall we tention to the hard times prevalent in remedy it? There is only one way and that is to remove the disease with the instrument that has spread it. The nonsense that is contained in the KICKER columns will cause its circulation in the east to reach enormous proportions. After reading the blood curdling tales of life in the west, the reader can turn to other pages filled with trath concerning our country and its great future. The mission of the KICKER will not be accomplished until it has displaced ignorance and enthrowned knowledge of our beloved territory in every hamlet in the United States.

Decidedly Shaky. A trembling hand, an uncertain step, fidgetiness, indicated by restless shifting from one place or posture to another, usually mer tal annoyance at unexpected noises, are among the indications of extreme nervousness These seem trifling, but the health of men and women in this condition is "decidedly shaky," liable to be overthrown disastously by causes which the vigorous might defy. To fortify the nervous system, general vigor must, through the medium of re-inforced digestion, and a renewal of impaired power of sleeping at night, be raised to a healthful standard. A guarantee of this is Hostetter's Stomach Bitters, which re-establish digestion, bile secretion and the habit of hody on a permanently regular basis. thus renewing that bodily equilibrium which is followed by a gain of strength and nerve tranquility.
